Winners will receive awards for their recognized products. They will also be featured on the security industry leading website, [securitytoday.com](http://securitytoday.com), and will be recognized in CyberSecured e-news.

“As we near the end of 2021, it is always a pleasure to evaluate the IT security solutions entered in our product awards contest. As expected, the entries this year take security to the next level,” said Ralph C. Jensen, editor in chief of *Security Today* magazine, and CyberSecured eNews. “The IT security products we see today are the guardians of digital networks. I am amazed at the brilliance, integrity and thoughtfulness each solution brings to the end user. With so many networking issues announced every day, the demand for robust security is absolutely paramount.”

Information about the 2022 CyberSecured Awards will be available at [securitytoday.com](http://securitytoday.com) in the fall of 2022.
