

### ***Security Today* 2021 New Product of the Year Award Winners Announced**

DALLAS, August 16, 2021 - *Security Today* magazine, the leading industry media brand providing technology, education and solutions for security professionals, and securitytoday.com, the preeminent editorial website for the security industry, announced the winners of the *Security Today* 2021 New Product of the Year Award today.

The *Security Today* New Product of the Year Award honors the outstanding product development achievements of security equipment manufacturers whose products are considered to be particularly noteworthy in their ability to improve security. In the 13th successful year of the independently juried contest, winners were honored in 43 product award categories.

“What a crazy year this has been for everyone. Challenging or not, I have noticed that product development and new security solutions were in no way quarantined,” said Ralph C. Jensen, editor in chief of *Security Today* magazine. “It seems all manufacturers have been busy and have stayed on track to release new products. We appreciate those entrants who have taken the time to share their newest products with us, and for your review. I anticipate manufacturers will continue on their way to bring new technology to the forefront. I believe we are on the threshold of security engineers bringing to bear more sophisticated solutions. What a great year this will be.”
