

### ***Security Today* 2023 New Product of the Year Award Winners Announced**

DALLAS, September 6, 2023 - *Security Today* magazine, the leading industry media brand providing technology, education and solutions for security professionals, and securitytoday.com, the preeminent editorial website for the security industry, have announced the winners of the *Security Today* 2023 New Product of the Year Award.

The *Security Today* New Product of the Year Award honors the outstanding product development achievements of security equipment manufacturers whose products are considered to be particularly noteworthy in their ability to improve security. In the 15th successful year of the independently juried contest, winners were honored in 43 product award categories.

“In the realm of security, innovation is essential. When judging new security products, remember that they should not just meet today’s challenges but also anticipate the threats of tomorrow,” said Ralph C. Jensen, publisher of *Security Today* magazine. “By taking a proactive and holistic approach to security products and technology, you can better anticipate and adapt to ongoing physical security needs in commercial and industrial settings, ensuring the safety of your assets, employees and operations. We are pleased to recognize so many outstanding new security products that are addressing these concerns.”

“It is critical for manufacturers and end users to conduct regular risk assessments and keep up with industry news and trends,” Jensen continued. “Creating successful security innovations means engaging security professionals, sharing security concerns and requesting input on threat assessments and prevention strategies, as well as keeping an eye on the latest technologies, such as access control systems, surveillance cameras, biometrics and artificial intelligence. While the list of emerging products is seemingly endless, periodic review and update of security policies and procedures can help your organization adapt to changing circumstances.”

2023 winners will receive awards for their recognized products. They will also be featured on the security industry leading website, **securitytoday.com**, and will be highlighted in the November/December 2023 issue of *Security Today* magazine. Entrants will be included in the September/October 2023 issue of *Security Today* magazine. Print and digital editions of the magazine are distributed to an audience of more than 37,000\* subscribers five times a year, and the website is visited by thousands of security professionals every week.
