Identiv, Identiv Body Temperature Measurement Patch

Winners will receive awards for their recognized products. They will also be featured on the security industry leading website, securitytoday.com, and will be highlighted in the November/December 2020 issue of Security Today magazine. Entrants are included in the September 2020 issue of Security Today magazine. The magazine is distributed to 54,500* subscribers monthly, and its website is visited by thousands of security professionals every week.

“New products and technologies are the backbone of the security industry; however, with the pandemic affecting everyone these days, businesses have been in survival mode,” said Ralph C. Jensen, editor in chief of Security Today magazine. “The products we have seen entered in this year’s competition are best of the best. Manufacturers are once again stepping forward with solutions that will impact end users’ safety and security. I’m pleased to see so many entries from numerous manufacturers. It is comforting to know that technology and solutions never take a leave of absence from security concerns.”

Information about the 2021 Security Today New Product of the Year awards will be available at securitytoday.com in the spring of 2021.
